Lt. Kevin Kelley Board of Inquiry Report

Local 718 Press Statement

“Boston Firefighters have endured many tragedies, but the loss of Lt. Kevin Kelley is particularly poignant because it was so needless, and preventable. We contend that had the Boston Fire Department conducted the safety audit as requested by the Union in 2006, Kevin’s death could have been prevented. It is our sincere hope that policy makers responsible for procuring and maintaining fire apparatus in Boston utilize this report to correct the failed policies which led to Kevin’s death. His sacrifice deserves nothing less.”

Edward Kelly, President

Boston Firefighters Local 718
